Investment Gold and Silver Bars

Description of the solution:

The designs represent the shape and external appearance of investment gold and silver bars, featuring a visible mint stamp on the obverse of each bar denomination. The bars are manufactured and placed on the market through selected distributors as investment bullion bars intended for consumer sale.

Benefits of the solution:

- Increasing the attractiveness of investment bars.

Area of application:

Sale of investment gold and silver

Intellectual property:

European Union designs from No. 015098829-0001 to No. 015098829-0008
