JUSTIFICATION

The Company's Management Board deemed it appropriate to change the Statutes of the Company KGHM Polska Miedź S.A. by expanding the Company's subject of activity. Enacting a change in this regard is aimed at enabling achievement of the Strategy of KGHM Polska Miedź S.A. for the years 2017 – 2021 (with an outlook to 2040) with respect to the Innovation Support Strategy.

This change to the Company's subject of activity is based on expanding the Company's subject of activity by the sub-class **77.40.Z - Leasing of intellectual property and similar products, except copyrighted works**, and will result in a change in the Company's Statutes by adding a new subject of activity as a new point 85 in § 6 sec. 1 of the Company's Statutes.

Following is a detailed justification of the requested changes:

Due to the development plans of the Company as well as its wide-ranging research, development and innovation activities, it is appropriate to consider the possibility of commercialising certain objects of intellectual property rights created during the research and development work through the sale of shares in rights to own intellectual property, or providing licenses to third parties to utilise solutions protected by exclusive rights (for example - rights to patents) or other solutions and thereby to receive appropriate benefits.

At present, the Company's Statutes do not allow the conduct of activities with respect to commercialisation of intellectual property rights.

Consequently, it is deemed appropriate that the subject of the Company's activities be expanded to include the sub-class *77.40.Z - Leasing of intellectual property and similar products, except copyrighted works*.

This sub-class comprises activities related to the leasing of intellectual property and similar products, for which payments are collected in the form of royalties or licencing fees for their owner. The leasing of these products may involve: permits to reproduce, utilise in later processes or products, authorised distribution concessions (franchises). Present owners may, but are not required to, be the creator of such products.

Sub-class 77.40.Z comprises:

- the leasing of intellectual property, except copyrighted works, such as books or computer programs,
- royalties or licencing fees paid for the right to utilise:
 - patent rights,
 - trademarks, brand names,
 - rights to research and assess minerals,
 - franchises.

The new type of Company activity was defined in conformance with the Decree of the Council of Ministers dated 24 December 2007 regarding the Polish Classification of Activity (PKD) (Journal of Laws from 2007, No. 251, item 1885 with subsequent amendments).

In addition, making changes in this regard is aimed at enabling achievement of the Strategy of KGHM Polska Miedź S.A. for the years 2017 – 2021 (with an outlook to 2040) with respect to the Innovation Support Strategy, whose main goal is to:

- increase the role of intellectual capital in the KGHM Polska Miedź S.A. Group
- effectively manage innovation in the KGHM Polska Miedź S.A. Group
- protect the intellectual property of the KGHM Polska Miedź S.A. Group

The Management Board of KGHM Polska Miedź S.A. adopted a resolution on the draft changes to the Statutes of KGHM Polska Miedź S.A., and pursuant to § 29 sec. 3 of the Statutes of the Company, presented it to the Supervisory Board for its opinion.

The opinion of the Supervisory Board will be published immediately after it is received.
