- Head of the Telecommunications Section in Eastern Europe 2000-2005

Major achievements:

- 40% increase in the number of consultants during the first two years in charge of the McKinsey office in Poland – currently the largest strategic consultancy firm in Poland (5 partners, 55 consultants, 50 supporting staff)
- Acquisition of several new significant clients for the Company, among others 5 of the 15 largest Polish companies, and doubling of the number of projects for 4 large clients.
- Expansion of the Company's activities in Private Equity and in the public sector in Poland and Eastern Europe.
- Building of the Company's external reputation and shaping of the public debate in Poland, with particular attention on corporate governance, management staff efficiency, strategy and growth, and the development of national champions.
- Organisation of a Board Academy, workshops for 30 of the largest Polish companies, in which 250 management and supervisory board representatives participated.

- Increase in McKinsey's presence in Poland thanks to the opening of 2 new offices – a Knowledge Center for the EMEA region in Wrocław (80 staff) and the European Support Services Center in Poznań (130 staff).
- Restructurisation of the McKinsey Poland office and increased productivity by 35% in the years 2008-2009.
- Named as the first McKinsey director from Poland.

Business sectors and major experience:

The majority of consultancy projects were carried out for leading Polish and international companies, working in private equity, telecommunications/media, transportation, fuels, resources, power, finance and the public sector. The projects carried out focused on the most important problems from managements' point of view, such as strategy, mergers and acquisitions, due diligence, reorganisation and corporate governance, and also restructurisation. These were often programs of many months as part of multi-year cooperation, carried out for clients in Poland, Ukraine, Romania, the Czech Republic, Denmark, Germany, the UK, Sweden, Canada and the United States. The most important of these were the following:

- 5-year support for private equity firms in Eastern Europe: over 20 projects dedicated to sector analysis and due diligence in telecommunications, the media, pharmaceuticals, consumer goods, transportation and the health sector; restructurisation and realisation of strategic projects for portfolio companies.
- 12-year support for 4 successive presidents and management staff of a telecommunications operator in fixed-line telephony, mobile phones, data and media transfers, including the development of a corporate strategy and, for business units, development of internet and media units, development of a mobile phone increase strategy, development of new products in fixed-line and mobile telephony, reduction of operating costs (USD 200 million) and investments (USD 450 million), reorganisation of operator activities.
- 6-year support for a leading fuel company, including support for 5 successive presidents and 10 management board members in the development and realisation of a restructurisation program (effects on the order of USD 400 million), development of a strategy and the structuring of a merger and acquisition transaction, the carrying out of 2 post-merger management projects outside of Poland, development of a corporate strategy, marketing strategy and modification of a retail chain.
- 16-year support for 5 successive presidents of a leading airline, among others in the development and realisation of restructurisation programs, preparations for privatisation, development of a strategy for business units, a strategy to expand into new markets, fleet restructurisation, and a marketing and sales strategy.
- 3-year support for a large mining company in the development of a strategy for growth, improving operating productivity (USD 200 million), reduction of investment spending (USD 50 million), a merger and acquisition strategy, due diligence for 3 entities (including 2 taken over), corporate governance problems.
- Assistance for two power companies in the development of a strategy, restructurisation of mining activities, and the introduction of management systems.

- Realisation of a year-long management project following a merger in a leading retail chain.
- A variety of projects involving corporate strategy, restructurisation, organisation/corporate governance, mergers and acquisitions for medium businesses in the following sectors: media, consumer goods, financial institutions, retail chains and home appliances producers.
- Assistance for the governments of Poland and Ukraine in terms of corporate governance, the organisation of sporting championships, improving industrial productivity, and the economic implications of climate change.
- Realisation of Pro Bono projects for institutions such as the Great Theater in Warsaw, Ashoka and the Polish Business Council Club, involving problems related to growth strategy and investment policy.
