JUSTIFICATION

In recommending a dividend of PLN 0.8 billion, the Management Board took into account the specific conditions in which the Company operates. These primarily include:

- the situation on the commodity market and the level of volatility of prices,
- the high sensitivity of the Company's results to market conditions,
- the safe level of debt ratios,
- the nature of the investment program carried out (long-term investing process),
- the expenditures necessary in the Group to realise the development program.

In particular, taking into account the KGHM Polska Miedź S.A. Group's investment plan, the recommendation regarding the funds to be allocated to reserve capital will allow the Company, in the Management Board's opinion, to maintain a safe level of borrowing, one which does not expose the Company to excessive financial liquidity risk.

The dividend recommended by the Management Board is in line with the adopted Dividend Policy and was positively evaluated by the Supervisory Board of KGHM Polska Miedź S.A.
